ABOUT ME

A highly motivated and detail-oriented who is currently pursuing Master's in Computer Applications (MCA) student with a solid foundation in programming, software development, and IT solutions. Passionate about learning new technologies and eager to contribute to real-world projects. Skilled in languages such as Java, Python, with experience in database management, web development, and problem-solving. Adept at teamwork, quick to adapt to new tools and technologies, and excited to start a career where I can apply my academic knowledge and passion for technology to make a meaningful impact.
